PURCHASING INFORMATION

MAILING ADDRESS:

Wel-Fab, Inc.®
P.O. Box 86
Lumberton, NJ 08048

PHONE/FAX:

Phone: 888-275-0881 (Toll Free)
Fax: 609-267-6751

FAXED QUOTE REQUESTS:

609-267-6751

When faxing us your quote request, please ensure your request is sent on agency letterhead with all customer contact information on it; this will help ensure a timely response to your quote request.

FOR ORDER CONFIRMATION:

For order confirmation information, shipping information, by contacting Wel-Fab Inc. ® on our toll free number at 888-275-0881 or by e-mailing our Business Manager pjelstone@wel-fab.com

TECHNICAL INFORMATION/QUESTIONS:

Contact Paul Elstone, Sr. at paulelstone@wel-fab.com

LIDS™ CIVIL SUPPORT TEAM (CST)

Wel-Fab, Inc has developed a new Lightweight Inflatable Decontamination System (LIDS) Civil Support Team (CST) for use as field deployable Contamination Control Area (CCA) supporting CST personnel decontamination processing procedures.

LIDS CST was specifically designed and engineered for today's quick response Weapons of Mass Destruction (WMD), Civil Support Teams (CST). This system provides complete Contamination Control Area (CCA) decontamination capability for CST personnel while wearing the Level A, B, and C Hazmat Suits.

The LIDS CST Basic package provides a basic Tactical Decon Kit, which was designed to be integrated with existing CST support equipment such as, heating and cooling systems, plumbing connections, electrical systems, test equipment and other mission essential equipment. LIDS CST can be quickly and easily setup on all improved and unapproved surfaces expediently, using minimal CST manpower.

LIDS CST provides a quantum leap forward in decontamination system capability for use during the CST CCA Process. Building on the unmatched quality, modularity, and flexibility of our company's products, we worked closely with numerous CST units to develop the most advanced, easy to use personnel decontamination system available today.

The benefits of owning this ultimate decontamination system translate into unparalleled logistic improvements, including a smaller unit response footprint; shorten technician-training time, reduced setup/breakdown times, and the fastest relocation times during extremely austere and diverse emergency response conditions within all types of CST field operations.

Independently tested and validated by the USAF Air Warfare Center and approved for use by the Department of Defense, Joint Program Executive Office (JPEO) for Chemical and Biological Defense, LIDS lightweight and ergonomic design significantly was proven to reduce technician thermal burden usually associated with the setup and operation of decontamination systems.

Rapid Deployment and Setup:

- 5 Fully Enclosed LIDS Shelters provided
- Complete system set up by two personnel in under 20 minutes
- Each shelter structure inflates within two minutes or less

Protective Shelters Canopies:

- Environmental Control Unit (ECU) Heating/Cooling Integration Chute
- Clear window panels provide unobstructed view throughout the processing line
- Roll up canopy panels significantly reduce thermal burden

Modular Decon System:

- Shelters can be split up for independent multi-location operations
- Shelters/Stations can be individually spaced apart as required
- Shelters can be connected end-to-end using velcro connection

Multi Surface Setup/Anchoring Capabilities:

- Soft Surfaces (Grass/Dirt): Weight Bag Kit, Water Bags, and Spike Stakes
- Hard Surfaces (Concrete/Black Top): Weight Bag Kit, Water Bags

Integrated Gross and Technical Decon:

- Three completely integrated plumbing systems
- Gross Decon:** 5 Nozzle shower system provides maximum deluge
- Technical Decon:** Coiled spray hose, handheld sprayer, and rinsing wand maximizes decontamination contamination process.

Privacy Comfort Shower and Redress Area:

- Pre-Installed shower plumbing
- Integrated towel and Tyvek suit storage

Integrated Berm System:

- Berms are quickly setup within seconds
- Captures all gray water run off
- Eliminates run off during decon operations

Emergency Decontamination Area Incorporated:

- Supports rapid man-down decon procedures
- Overhead spray/deluge capability
- Berms are quickly setup within seconds
- Capture gray water at all required stations
- Coiled shower spray hoses

Harden Shelter Protective Containers:

- Multiple point locking system
- Pressure relief valve
- Roller wheels and carrying handles allow for single person handling

Soft Type Shelter Container:

- New Clam Shell Design for easy shelter packing
- Durable Easy Lift Container Handles/Water Resistant Material

Interior and Exterior Lighting:

- 18 Exterior Lights
- 5 Tube Lights

Slip Resistant Flooring System:

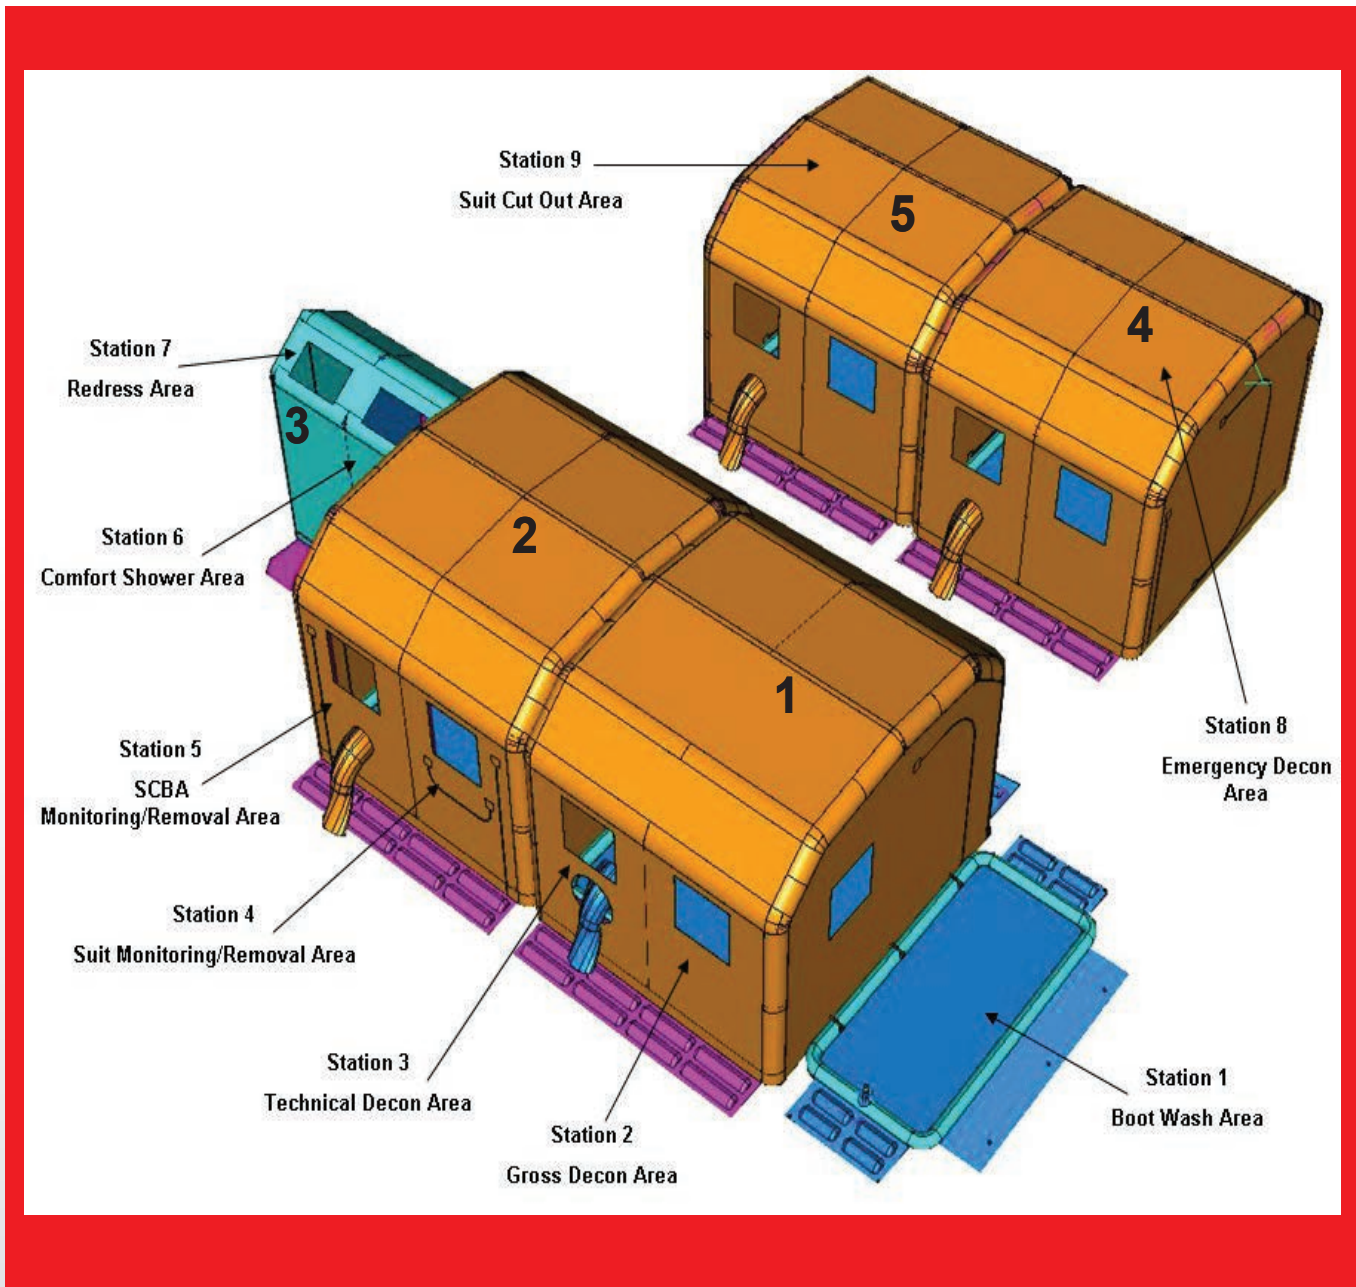

- Elevated platform
- Down range entry to liquid control line

EPDS/Rapid Response Kit—Non-Inflating:

- 1 complete response kit
- 5 X 5 Berms

Industry Leading System Warranty:

- Initial 3 year warranty
- Maintenance and service contracts provided

LIDS™ CIVIL SUPPORT TEAM

- Station 1 Boot Wash Berm (5'X10')
- Shelter 1 Station 2/3 Gross/technical Areas (10'X10")
- Station 2/3 Gray Water Collection Berm (10'X10')
- Shelter 2 Station 4/5 LHA/VHA Monitoring Area (10'X10')
- Shelter 2 Station 4/5 LHA/VHA Berm (10'X10')
- Shelter 3 Station 6/7 Comfort Shower/Redress Area (5'X10')
- Shelter 4 Station 8 Emergency Decon Area (10'X10')
- Shelter 4 Station 8 Gray Water Collection (10'X12')
- Shelter 5 Station 9 Hazmat Suit Cut Out Area (10'X10')
- Shelter 5 Station 9 Gray Water Collection (10'X10')
